PERMIT APPLICANT

CODE OF VIRGINIA, SECTION 54.1-1111
REQUIRES PROOF OF CURRENT STATE AND LOCAL
LICENSING BEFORE OBTAINING A PERMIT.

Virginia law requires that all persons performing building, plumbing, electrical, mechanical, gas work, and well drilling be licensed by the Board of Professional and Occupational Registration if the work performed is \$1,000.00 or more in value. Property owners may perform work on property they own without a license, but must provide an affidavit documenting exemption from state and local licensing when the value of a project is \$1,000.00 or more.

All contractors are required to provide proof of Virginia and local licensing at the time of permit application. Local licensing from other Virginia localities are honored for projects valued to \$25,000.00. Documentation is required when applying for a building related permit. Projects that are valued at \$25,000.00 or more require a County of York business license. This must be obtained before a permit is issued. Property and homeowners are exempt from local license requirements for work performed by them on their property. York County business license information may be obtained by contacting the Commissioner of Revenue at (757) 890-3383.
